

Dear Art Enthusiast,

I grew up in a small country town in Texas. As a child I loved chasing butterflies, listening to the wind blow through the pines, picking wildflowers, and trying to catch birds. I truly loved the beauty in nature even as a child. When I wasn't outside enjoying nature, I'd spend hours in my room painting little childhood masterpieces with my small set of watercolors. My daddy would go to the newspaper office and get end rolls of paper for me to paint and sketch on.

I've had a love for art since I was a little girl. When I was in my second year of high school, my oldest sister found an art teacher and we began taking private lessons for oil painting. She said it had been Daddy's wish before he died that I take painting lessons. I instantly loved it! I took lessons for two to three years.

I was married to my high school sweetheart, Arlie, shortly after graduation. Two years later he joined the Army and we began to travel across country and abroad. I painted on occasion as we moved from place to place, and sold some paintings when we lived in the New England area. It was when we moved to Arizona and settled near Ft. Huachuca to raise our two boys, that I really began painting once again on a regular basis.

I was truly blessed when I met a member, Tim Hurst, of the Huachuca Art Association by chance. He saw some of my paintings and encouraged me to become a member. Once I joined, I met a wonderful group of people. Life has taken me on many journeys, and this journey led me to my childhood dream of becoming an artist.

The beautiful sunsets and sunrises, the hummingbirds chattering amongst my roses, the hawks soaring above, and the beautiful mountain views serve as my inspiration. I paint from my heart, truly enjoying each brush stroke as I create my paintings. I hope you enjoy them as much as I enjoy painting them!

I also love designing and creating unique jewelry designs. All chains are created ring-by-ring using quality stainless steel rings. They are embellished with crystal and gemstones creating special pieces that will compliment any style, from casual to dressy.

Sincerely,

Teresa Kay Ebbs
